A fond hello to all,

Firstly, many apologies for the delay in the Park Dental update newsletter; it's been a wild few years with developing the practice and constantly improving our services to ensure you are being well looked after.

We have some very important news for you all and it is wonderful yet a true loss for Park Dental. The lovely Orla Tiernan is retiring as of the end of December 2017. Her and hubby wish to travel much more to see and explore the world.

Orla has written a few words for you

Orla Tiernan

"After 38 years as a Dental Hygienist the time has arrived for me to retire. I have been so lucky to spend 32 years working here at Park Dental initially with Malcolm Rodker and recently with Farid, Angelos and all the team. The decision, while exciting, is also tinged with a little sadness.

What made Park Dental so special were all the lovely patients I have treated over the years. You have all become my extended family. I will miss you all greatly and you will always be in my heart. I know you will be well cared for by Farid, Angelos and all the team at Park Dental in my absence.

The exciting part is having more free time to travel and pursue my hobbies at a more leisurely pace.

I will never forget my time at Park Dental. Thank you Park Dental."

A note from Farid

"While I am very happy for Orla to retire and enjoy life further, it is a true loss to the practice as a whole. I would like to take this opportunity, and am sure you will join me, to sincerely thank Orla for all of her services, care, loyalty and support that she has given to Park Dental, not only during my time since 2009 but indeed throughout her career for the past 32 years here. Her length of career speaks for itself which is a true gift to all parties. I personally wish her all the best for the future and a very happy, exciting, adventurous and yet relaxing, healthy and enjoyable retirement.

Noelle Smith will shortly be joining Park Dental to join our existing hygienists/therapists, Jessica Parnell and Justine Ping. They are all caring, gentle and highly qualified clinicians and I am confident that you will continue to experience excellent treatment from all of them. I would like to finish by wishing a very happy retirement to Orla, a welcome to Noelle and hope to receive your full support in this transition at Park Dental."

We shall be holding an open evening for Orla on Wednesday 6th December 2017 from 4pm-7pm in order for patients to come in for cheeky snacks, meet the staff and take the opportunity to say goodbye. **We very much look forward to seeing you.**

A note from Angelos

“There are times that a loss of a member of staff is not a typical one that you just want to replace as soon as possible with an equivalent candidate but someone who you do not wish to be replaced and you only hope that people will have them in their mind as a unique one; this is Orla.

It is time to say goodbye to her, not because she is leaving us but because it is the time to retire and enjoy all her efforts in life and work. Orla can be called “the heart of Park Dental” as she has continuously worked in our practice for 32 years and she has seen all the major transitions in terms of practice owners, patients’ treatment, way of work and quality service improvement.

We are so proud and pleased that she was a loyal member of our team that we can only wish her a fruitful retirement and to spend her time out of work as nicely as she was treating our patients and as gently as she was approaching every single one of us whenever she was trying to explain her thoughts, suggestions, ambitions in order to improve everything we do for our patients and for the local community.

We wish her the very best from the bottom of our heart and we need to say a big thank you for everything she has offered to us as people, clinicians as well as a team and family at Park Dental.”

New additions and ideas - the way forward.

Farid and Angelos frequently attend highly recognised courses, for example in CBCT training, dental implants, Orthodontics, and well-renowned dental symposiums. The rest of our team are also continually keeping up to date with their dental education and training in subjects such as Safeguarding, Equality and Diversity, Legal and Ethical - to name a few. We have our Denplan training day coming up to keep us all in the knowledge and fully trained for your continued care and safety.

We have invested in a new dental microscope which has already helped to achieve some brilliant results within dentistry and mainly in the endodontic field.

We also have facebook and Twitter social media sites for the practice to keep in touch with you further as communication and connections are 24/7 nowadays. Come and say hi and give us a like, or 100 likes. We are now able to keep you frequently informed with practice endeavours, updates and even competitions.

Our ‘refer a friend cards’ are still going strong so please don’t forget to hand them out to your friends; there is a £15 John Lewis voucher in it for you and 50% off their first visit. What have you got to lose? Please pick up one when you are next in reception.

In addition, our ‘Free Smile Consultation’ is still very popular, so please do not hesitate to contact us for a free 15 minute consultation to help us improve your smile.

Thank you to all of our brilliant patients for your continued loyalty to Park Dental and we hope to continue to provide the service you deserve; we welcome all feedback. Thank you Orla for all of your hard work and loyalty, we shall miss you dearly. Best wishes on your travels and keep safe.

All our love.
